FOCUS ON WHAT MATTERS MOST. **YOUR PATIENTS.**

The two most important things to consider when it comes to acquiring new equipment or software are:

1. How can it help your patients?
2. How can it help your practice?

At Canon, we believe that by helping you address the first concern, we can help you address the second. After all, how effectively you're able to serve your patients impacts how well and how profitably you can manage your business.

It's all inter-connected.

Whether it's our printers, scanners, IT security offering, or document management solutions, we'll help free you up to offer the best quality of care you can. Let us help you identify ways to make your operations more efficient. At Canon, that's a responsibility we take to heart, as we know how important your work is.

Canon

FOCUS ON YOUR PATIENTS.
WE'LL TAKE CARE OF THE OTHER DETAILS.

Digitise and store records securely

Preserving your old patient records in a more permanent and secure format is easy – digitise them. Canon's backscanning services will bring your patient records into the paperless era, making them as accessible as your recent patient records.
• **Canon Document Management Solutions**

Control your printing costs

With an all-inclusive print subscription from Canon, you can appropriately budget for your monthly printing costs, and prepare for any unexpected eventualities.
• **Canon Print Solutions**

Your data is precious – so protect it

Only an IT solution specialist can offer you a secure IT management service. With Harbour IT (a Canon Group company), you'll enjoy a range of comprehensive security options.
• **Canon Business Services**

Integrate your software

With Canon Software Solutions, you're able to automatically capture information and integrate it with your systems, making storing and accessing data more accurate and efficient.
• **Canon Software Solutions**

Access the data you need

Patient information should be at hand when it really matters. With Canon, you'll have the right data at your fingertips, enabling you to get to the heart of any consultation with confidence.
• **Canon Document Management Solutions**

Turn paper into information

Allow Canon to help you transform bulky folders into digital files than can be filed, indexed, and stored easily.
• **Canon Document Capture Solutions**

Back Office

Waiting Room

Consultation Room

DOCTORS

Print documents instantly

Canon's desktop multifunction and laser printers, can be as fast and flexible as your practice – saving you time waiting by the printer for your documents.
• **Canon Desktop Printers**

Reduce unfortunate mistakes

By reducing manual input, Canon can help eliminate human error and reduce costly mistakes when handling patient information.
• **Canon Workflow Solutions**

Reduce admin time

By digitising and indexing large volumes of documents, you can spend less time on administration and more time on patient care.
• **Canon Multifunction Devices and Document Scanners**
