

Perfect wide angle lens for entry level DSLR users expanding to landscape photography

Explore a wider angle of view with the EF-S 10-18mm f/4.5-5.6 IS STM, perfect for entry level DSLR users wanting to expand their photographic abilities. With Image Stabilization and a built in STM for smooth focus and sharp image quality, the EF-S 10-18mm f/4.5-5.6 IS STM is a great travel companion for entry level landscape photographers.

Key Features

- EF-S ultra-wide zoom lens with a 16mm-start focal length (35mm equivalent)
 - The focusing mechanism employs a stepping motor and lead screw to provide quiet and smooth Movie Servo AutoFocus for shooting movies
 - A large-diameter element for the 2nd lens and an aspheric lens for the last element in combination favorably correct aberration phenomena for higher image quality
 - Uses a UD lens to correct chromatic aberration for excellent image quality throughout the zoom range
 - Image Stabilizer equivalent to a shutter speed 4 settings* faster
 - Lens disposition and coatings are optimized to minimize ghosting and flare
- * Based on CIPA standards. (Focal length 18 mm, 35mm equivalent 29 mm, using an EOS 7D)
